Business Outlook

**TODAY
INTO
TOMORROW**

OUTLOOK

Collection Solutions:

- **No new markets** are expected to generate significant revenues in the coming quarters, but replacement opportunities in the German market are expected to improve performance going forward.
- On the back of a somewhat weak first quarter 2015, activity is expected to develop positively, and **2015 in total is expected to be stronger than 2014**, both in respect of revenues and EBITA.

Sorting Solutions:

- The business area ended first quarter 2015 with an all time high order backlog, and **second quarter 2015 is consequently expected to be strong** and materially better than second quarter 2014.

Currency:

- Reporting in NOK and with some NOK cost base, TOMRA will in general benefit from a weak NOK, measured particularly against EUR and USD. TOMRA will consequently continue to gain from a strong USD and EUR, provided current exchange rate levels are maintained.
