Outlook

Collection	• High activity related to new and expanding markets. • Quarterly performance will be dependent upon timing of new initiatives.
Recycling	• Regulation and demand for recycled materials is expected to create attractive growth opportunities. • Currently softer market sentiment in plastics recycling leading to slower short-term growth. • Based on the order backlog at the end of the fourth quarter, a 45% conversion ratio is estimated to be recognized as revenues in the first quarter.
Food	• Need for automation and increased quality and safety requirements create opportunities mid and long term. • Challenging macroeconomic environment is delaying customer investments. • Based on the order backlog at the end of the fourth quarter, a 65% conversion ratio is estimated to be recognized as revenues in the first quarter.
Other	• Capital expenditures from Horizon activities of approx. 40 MEUR are expected in 2025, primarily related to TOMRA Feedstock.
Currency	• TOMRA's global operations exposes the financial results to currency fluctuations. TOMRA will generally benefit from a stronger USD due to the revenue exposure.
