

4th quarter 2025 results announcement

Quarterly highlights

Group highlights

Collection

Record quarter with roll-out in Poland and Portugal starting

Recycling

Good quarter in a weak year with challenging markets

Food

Strong quarter in a year with record strong EBITA and profitability

Collection Business update

- Good sales in existing markets, particularly Continental Europe
- Installations in Poland and Portugal slowly picking up
- TOMRA has been appointed Return Point Network Operator in Singapore
- Increasing UK commercial activity with ongoing RFPs

TOMRA S2 installed in Poland

Record quarterly revenues

Singapore – 1 April 2026

Singapore will officially launch its upcoming deposit return system on 1 April 2026. ([link](#)). TOMRA has been appointed as one of three Return Point Network Operators.

Portugal – 10 April 2026

Portugal will officially launch its upcoming deposit return system on 10 April 2026, ([link](#)).

Greece – 1 December 2025 – delayed

In February 2025, secondary DRS legislation was signed into law by the Minister of Environment and the Minister of Economy ([link](#)). In October 2025, the system operator was assigned. System preparations are underway but the launch date is delayed.

Moldova – January 2027

The government of Moldova has adopted an implementation framework for a deposit return system covering plastic, metal, and glass beverage containers – both single-use and reusable ([link](#)).

United Kingdom – October 2027

In January 2025, the UK government passed a DRS law for England and Northern Ireland ([link](#)). Scotland has passed legislation to aligning it with UK. On 6 May 2025, UK DMO was announced as the system operator ([link](#)).

Spain – TBD

In November 2024, Spain announced that it will introduce a deposit return system within 2 years in accordance with its waste management law 'LRSCEC' ([link](#)). Further regulatory alignment with PPWR is being considered and would likely delay the system launch. The government is in process of assigning a system operator.

Recycling Business update

- Significant mid-to-long term potential unchanged
- Weak market sentiment within plastics and waste continues in North America and Europe
- Cost savings program initiated
 - ✓ Target to restore profitability back to +20% EBITA margin
 - ✓ 16 MEUR gross annual cost reduction target, fully effective from 2027, through ~175 FTE reductions and an optimized global footprint and supply chain
- Improved order intake in the quarter with some larger projects signed in Northern Europe

Lower order backlog due to low order intake in 2025

Price development (illustrative) of virgin PET and recycled PET (rPET)

PET = virgin-derived polyethylene terephthalate
rPET = recycled polyethylene terephthalate (comparable to virgin PET)

Food Business update

- Positive momentum in order intake continues, led by Potatoes and Citrus
- Strong order backlog with large projects to be delivered in 2026
- Exceeding our profitability target of 10-11% EBITA in 2025
- The new TOMRA 5S Blueberry revealed at Fruit Logistica 2026, powered with TOMRA's AI solution LUCAi

The new TOMRA 5S Blueberry, Spectrim with LUCAi

Record high order backlog

Order backlog
Euro millions

Horizon Business update

- c-trace: Strong momentum with double digit growth and >20% EBITA margin
- Reuse: Successful piloting of event solution at Fairground Festival in Hannover and Intility Arena in Oslo
- Feedstock: Good start to Områ operations with positive EBITDA run rate; ramping up to two shifts. For the German plant, remaining investments of approximately 25 MEUR have been put on hold as we adapt to the current state of the recycling market.

→ Business risk profile: BBB+

→ Financial risk profile: A

Outlook

Collection

- High activity related to new markets and growth in existing markets.
- Quarterly performance will be dependent upon timing of new initiatives.
- Revenues in existing markets are generally expected to grow mid-single digit annually on average. There are additional growth opportunities in both new and recently launched deposit markets such as Poland, Portugal, Romania, and Austria. Current orders in Poland, Portugal, and Singapore are expected to contribute with approximately 100 MEUR in revenues in 2026.

Recycling

- Regulation and demand for recycled materials is expected to create growth opportunities.
- Currently soft European plastics recycling market, trade tensions, and a high degree of macroeconomic uncertainty lead to increased uncertainty in the timing of orders and limited opportunity for growth in 2026.
- Cost reduction measures of approximately 16 MEUR (gross) will gradually be implemented in 2026. These are estimated to incur restructuring costs of approximately 15 MEUR.
- Based on the order backlog at the end of the quarter, a 40% conversion ratio is estimated to be recognized as revenues in the first quarter.
- There is currently a higher share of metals recycling in the backlog with lower gross margins than other segments.

Food

- Need for automation and increased quality and safety requirements create opportunities.
- Growth prospects for Food revenues in 2026 are estimated to be in the mid-to-high single digit range.
- Based on the order backlog at the end of the quarter, a 55% conversion ratio is estimated to be recognized as revenues in the first quarter.

Other

- Capital expenditures of approximately 100 MEUR are expected in 2026, primarily directed towards projects in TOMRA's core divisions Collection, Recycling, and Food.

Currency

- TOMRA's global operations exposes the financial results to currency fluctuations. TOMRA will generally benefit from a stronger USD due to the revenue exposure.
